## Report Builder for MS Excel

Create and run personalized reports in Excel

A report builder to generate reports on-demand and in seconds, giving you the power of information at your fingertips, directly in Microsoft Excel.

**Download** the free BillingPlatform Report Builder for Microsoft Excel from the Microsoft AppSource. With the Report Builder, easily create reports directly from your billing systems to report on specific fields, aggregate results, and add filters. From this data, apply formulas, create charts, and pivot tables to create the reports needed to manage your business.

Row Labels	Additional Instance Subscription	Annual Incremental Usage	Billable Events	Billed Revenue
20-Q1	\$ 20,050.00	\$ 4,884.00	\$ 19,559.23	\$ 136,37
20-Q2	\$ 2,550.00	\$ 10,736.40	\$ 12,242.07	\$ 165,56
19-Q1	\$ 2,325.00	\$ 24,672.77	\$ 92,26	
19-Q2	\$ 3,175.00	\$ 22,584.02	\$ 149,54	
19-Q3	\$ 2,550.00	\$ 87,216.02	\$ 145,37	

### Simply

- Drag and drop the fields you want in your report into your report pallet
- Choose the aggregation functions such as SUM, MAX, Average or Standard Deviation
- Filter relevant data element you desire using flexible comparison operators and limits
- Apply logic to achieve pinpoint accuracy in your targeted data

**The BillingPlatform Report Builder for Excel delivers even more freedom to innovate, giving you total control over the data in your billing solution, directly from Microsoft Excel.**
