

# Automated E-Invoice Solution for BillingPlatform

Comply with electronic invoicing regulations while you streamline your invoicing process with automated, secure and efficient e-invoice directly within BillingPlatform.

## Overview

BP E-Invoice is a native electronic invoicing solution within BillingPlatform that helps companies comply with emerging government regulations around how invoices are sent. This new functionality automates the creation, delivery and tracking of invoices. Additionally, by transitioning from manual or paper-based processes to a digital system, BP E-Invoice enables faster payments, reduces errors and enhances customer satisfaction.

## Key Features

### Cost-Efficient Solution

BP E-Invoice is developed in-house, providing a fully integrated, cost-effective alternative to third-party e-invoicing services. By eliminating additional licensing and integration costs, BP E-Invoice is a budget-friendly option for businesses looking to streamline invoicing without compromising functionality.

### Centralized E-Invoicing Across Systems

For organizations running multiple billing platforms, BP E-Invoice offers a consolidation option, enabling businesses to manage invoicing through BillingPlatform even if other billing systems are used. This capability simplifies operations and provides a single, unified e-invoicing solution.

### Comprehensive Compliance and Reporting

Beyond standard e-invoicing, BP E-Invoice includes mandatory reporting functions like SAF-T and supports local regulatory needs, for country-specific compliance. This helps ensure that all invoices meet global and regional standards without additional solutions.

### Unmatched Data Accuracy and Efficiency

By integrating all invoicing functions within BillingPlatform, BP E-Invoice removes the need for external synchronizations, minimizing the risk of data inconsistencies. This ensures that invoicing data is always accurate, reliable, and effortlessly managed.

## Benefits

### Faster Payments

With immediate electronic delivery and digital payment options, BP E-Invoice helps speed up payment cycles, improving cash flow.

### Streamlined Collections

Integrated reminders and dunning management tools help you follow up on overdue payments efficiently.

### Improved Accuracy

Automate calculations for taxes, discounts and credits, ensuring consistent and error-free invoices.

### Reduced Manual Work

Automating the entire invoicing process minimizes manual intervention, reducing errors and freeing up resources for higher-value tasks.

### Enhanced Customer Experience

Customers receive accurate, timely invoices in their preferred format and can pay through integrated payment options like BP Pay.

## Configurability and Flexibility

- ✓ **Seamless Integration:** BP E-Invoice is fully native to BillingPlatform's core functionality, making it easy to manage billing, payments and invoicing from a single platform.
- ✓ **Configurable Templates:** Tailor invoice templates to your brand guidelines, including logos, payment terms and personalized messages.
- ✓ **Multi-Currency Support:** Easily manage invoicing for international customers, with full support for multiple currencies and localized formats.
- ✓ **API Access:** Use BP E-Invoice's API to integrate invoicing with other systems, ensuring flexibility and extensibility.

## Security & Compliance

- ✓ **Secure Data Transmission:** All invoice data is transmitted securely, ensuring customer information is protected.
- ✓ **Audit Trails:** Maintain detailed records of all invoicing activities, ensuring compliance with audit and tax requirements.
- ✓ **Tax Compliance:** BP E-Invoice automatically calculates applicable taxes based on regional rules, ensuring every invoice meets local tax laws.

## Pricing

BP E-Invoice is available as an add-on module within BillingPlatform. Pricing is based on usage and the number of invoices processed.
